

6 reasons to go for

for the NEW Thermo Scientific HAAKE Viscotester iQ Rheometer

1

Reduced operating times

- Decrease handling time by improved sample workflow
- One push button and get your results

2

Simple to operate

- Minimize mistakes by using the Thermo Scientific™ HAAKE™ Viscotester™ iQ RheoApp software
- “Connect Assist” function automatically detects the measuring geometry and temperature module

3

Really easy to use

- Quick fit and quick release of rotors in plenty of space
- New lift operation enables you to swap rotors and load samples quickly

4

Easy control by a touch screen

- Control of measuring routines by touch screen
- Live on-screen data with an automatic evaluation

5

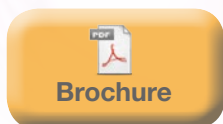

Auto-precise temperature control

- Fast and precise Peltier temperature control for coaxial cylinders and parallel plates.
- Decrease your operating time by the “Temperature Assist” function with automatic stabilization time determination.

6

Trouble free transfer of test methods

- Manual use and Thermo Scientific™ HAAKE™ RheoWin™ compatible
- Have your measurement routines transferred by our experts, compatibility assured
